

"To be equipped for future opportunities"
Is the answer why they want to learn Chinese

Dear Parents,

Please allow me to introduce myself. My name is Chin-Mei Teng, and I am from Taiwan. Since learning Chinese appears to be a growing trend in United States schools, I would like to invite your children to join the Chinese club at St. Alban's Episcopal Day School's after-school's program.

With China's booming economy, learning Chinese has become increasingly important, and learning Chinese is a growing trend across schools in the United States. According to the American Council on The Teaching of Foreign Languages, the number of students enrolled in Chinese language classes has tripled in recent years. Thus, knowing Chinese will offer your children the opportunity to compete effectively in the global economy of the future! I believe that I can do my part to help your children learn Chinese like other metropolitan students are doing.

Let us help children in St. Alban's Episcopal Day School to be well prepared for the world of the future!!!

Sincerely,

Chin-Mei Teng 鄧金梅
